Class Descriptions

AQUA JOCKS: This is an intense cardio class using training elements to increase muscle strength and endurance.

CARDIO COMBO: High intensity combinations of moves designed to keep your heart rate up and move you in all ranges of motion.

CARDIO SPLASH: This class is composed of cardio choreographed routines, mixing in a variety of dance forms. From salsa to kick-boxing, be ready to have fun while getting work done in the water.

CARDIO POWER SPLASH: This class will follow the same format as our Cardio Splash class, but with a powerful twist! Equipment will be introduced for parts of this class and you will learn how to use it safely and properly.

CIRCUIT H2O: Boost your cardiovascular health and muscle endurance rotating through stations of exercises in shallow water. Stations include endurance, resistance, strength and balance training using various equipment. Move through timed stations with targeted exercises and in depth coaching!

DEEP COMBO: Take the plunge and challenge the water and thrashing currents of DEEP power and fun! Challenges your body, stamina, and mind.

FLUID MOTION: Posture, balance, and range of motion is the primary focus of this class with a mild cardio section.

HYDRO POWER CONDITIONING: This class will put your balance skills to the test while working on light exercises to improve strength and cardio health. Equipment will be used to challenge your body and mind

HYDRO-TONE: This class works on improvement of flexibility, core strength, breathing and balance.

H2O FIT: Cardio and strength training with a variety of non-impact moves using water resistance and resistance training equipment. Flotation belts provided for buoyancy(deep only)

INTERVELOCITY: Aerobic activities mixed with high-energy anaerobic training. Easy to follow - challenge your workout and improve overall fitness!

KRAKEN COMBOS: This class is a cardio class with evolving formats. Some classes feel like you're line dancing, others will be interval training. In every class you will challenge your muscles and improve your cardiovascular health.

AQUA FITNESS FAQ:

What are the best classes for beginners?

- Aqua Jocks
- H2O Fit
- Cardio Splash
- Hydro-Tone

Do I need to be "fit" to attend Aqua Fitness classes?

- No! All classes are able to accommodate any fitness level, although we recommend starting with our beginner classes :)

Can I still attend classes if I am injured?

- Yes you can still attend, but we recommend discussing it with your doctor before hand to prevent further injury. All of our instructors are highly skilled and can accommodate class structure and routine for you if needed. *please inform your instructor of any injuries prior to class*

How do I check in for class?

- Please visit one of our front desks before your class begins to receive your class pass. Give these to your instructor before class starts and enjoy your workout! *if attending multiple classes in a row, please obtain ALL passes*
